

1125

Compact in Size and Low on Running Costs

The Tally DASCOM 1125, is a 24 pin, 80 column serial dot matrix printer with USB, parallel and serial interfaces as standard. Compact in size, the 1125 is perfect for industrial environments and front and back office applications where space is limited.

With low running costs, high quality output and an easy to use control panel it's ideal for small business, low volume listings and reports, as well as dispatch notes and labels.

- Compact 24-pin narrow carriage printer
- Up to 500 characters per second
- Ideal for front and back office applications
- Auto switching USB, parallel and serial interface
- Long life ribbon
- Small footprint

In addition to these applications, the 1125 is also well suited to measurement and control systems. Amongst the lowest priced matrix printers available today the 1125 also offers a long life ribbon giving this printer very low running costs.

For draft printing it's considerably less expensive running costs make it a viable alternative to low cost inkjet printers.
