

# FS-C1020MFP

**Kyocera's color multifunctional printer delivers the high performance, and vibrant color quality that today's image conscious businesses demand.**

With color print/copy/scan and black & white fax capability, the Kyocera FS-C1020MFP offers a robust maximum paper capacity of 750 sheets with a compact design. Standard duplex printing and copying improves productivity and paper savings.

All main features are quickly accessible through the intuitive control panel. Fast warm-up times ensure this office assistant is always ready for end users. Capture full color images and transform hardcopy originals into digital files for email distribution or for archival. The FS-C1020MFP has the versatility to quickly send faxes via PC or the document feeder.

Standard network support means your customers have a shared resource for workgroup members. The administrator controls end user access and restrictions to keep confidential information secure.

The FS-1020MFP is the reliable printing solution for organizations of any size looking to add color to their communications.

FS-C1020MFP shown with the optional 500 sheet paper feeder (PF-110) and standard 35 sheet automatic document processor. This color multifunctional printer offers standard duplex printing and supports a maximum 750 sheet paper capacity from up to three (3) paper sources.
