International mail is metered according to its destination at the appropriate First Class

Rate - \$1.40 1oz Letter /\$2.75 1oz Flat

Tips for Mail Piece Design:

- On all folded booklet-style mailers - the bound edge should be on the right hand side (leading edge) of the mail piece
- All mailing panels should be faced so the final folded edge is at the bottom of the mail piece to minimize tab requirements
- For automation mail (aka Barcoded mail) - there MUST be at least an area of 4 inches wide by 2 3/4 inches tall of blank space to print the address and barcode. These dimensions will ensure there is enough space around the information so it can be read accurately on the USPS machines. (see example card below)
